2021 Holiday Catalog

A Bucket Hat **THAT REMINDS YOU OF A TIME WHEN EVERYTHING WASN'T LIKE THIS**

\$229.00

Holiday stress getting you down? Feeling worn out by the pace of life? The merciless, constant onslaught of terrible news as human civilization spirals out of control destroying you from within? Good news, now you can buy A Bucket Hat That Reminds You of a Time When Everything Wasn't Like This!

Remember things were different, and thus better? With this stylish hat similar to that worn by LL Cool J, Barbra Streisand and the guy from The New Radicals, you can briefly retreat into memories of a period when there was the chance of the world actually getting better, instead of being literally on fire. With special cooling fabric and associations with either rave, mod, hip-hop or fishing culture, this hat is sure to relax and make you think for even a brief moment that things will be fine. They'll be okay. It's fine. Everything is okay.

Even Worse **COCKROACH**

\$0

**FOR THOSE HARD-TO-BUY-FOR
FULL-ON FREAKS
AGES 35+**

Ever wonder what to get someone who has it all? Everyone has that hard to shop for coworker who owns a house, gets paid more than you, has a husband, *and* 2.5 kids. She'll scream with delight when she unwraps something that's not on her list but she definitely wants: *Even Worse Cockroach*.

Even Worse Cockroach is like a regular cockroach (alive, nasty, big) but it's even worse. HOW MUCH WORSE, YOU ASK? Well, it has twenty-seven legs instead of the standard six. When it's flipped over it says (in English), "Please flip me back over mommy" in a baby voice until you come over there and flip the damn thing over like a big juicy pancake. It never dies!

One of the most impressive features of *Even Worse Cockroach* is that it is massive. Roughly the size of an overweight dachshund, the *Even Worse Cockroach* will have everyone in your life absolutely doinking their nuts in a rush to get a roach of their own.

Thanks
Jeff!

While Santa was busy pissing off PETA flying around in his reindeer sleigh delivering gifts, Jeffrey Bezos was nobly violating OSHA by having his elves assemble and rush your presents out this year with no lunch or bathroom breaks. And unlike the former who receives yearly accolades in both letter and milk and cookie form, not a single one of you has stopped to recognize the true meaning of Christmas in Capitalism: thanking our supreme billionaire. Now, with your Besos for Bezos thank you card craft kit, you and the whole family can have fun assembling DIY cards to send to Amazon headquarters and shower our likely future President with the praise he deserves!

**Clarence,
I want to die
again!**

**FOR FANS OF THE DNC AND HOLIDAY CLASSICS
AGES: 70+**

Few holiday traditions bring as much joy as sitting down with the whole family and watching Frank Capra's *It's A Wonderful Life*. It's a timeless story that reminds us of the importance of human life, of community and kindness, that no one is a failure if they have friends.

However, none of those values best represent what the Democratic Party stands for. That's why the DNC is proud to present *It's A Terrible Life*, a reboot of the holiday classic that looks deep into the soul of this country and decides everything is going great, actually, and you're an idiot for wanting anything more.

When George Bailey loses faith in President Joe Biden's ability and desire to help the American people, his guardian DNC operative Clarence shows him a world where Biden was never born. His faith in centrism restored, George learns the most powerful lesson of all: that not only will nothing fundamentally change, but nothing should fundamentally change.

If you thought you had to be spared from all the fun and festivities of the mysterious Havana Syndrome and its weird symptoms just because you aren't one of our nation's diplomats or high-level military personnel, well Merry Christmas to you! We have distilled the complex and intricate feelings of mass panic, chaos, the doom associated with seeing scary blotchy brain images from your MRI screenings neuro-imaging scans, existential dread, the near constant ringing noise and/or cricket chirping in your ears, and that general "unwell" feeling you simply cannot shake into an easy to swallow pill that you can gulp down your gullet while you're fa-la-la-la-ing with friends and family this season. Our nation's elite and their spooky illnesses (whether imaginary or psychotic sonic attack) are just more interesting than the common cold and flu. So curl up under the christmas tree with THE HOTTEST and most probing mystery that is on everyone's minds this year, including Santa himself: WHAT THE FUCK IS HAVANA SYNDROME?!

Woke **FLASHCARDS**

NEVER GET OWNED AGAIN!

AGES: 40+

Face it, you're getting older, and it's impossible for the well-meaning aunt and uncle to keep up with all the buzzwords, race theories, and woke lingo your genderqueer nieces and pansexual nephews are saying over the holidays. They're going on and on about Demi Lovato's performative allyship and the intersection of late stage capitalism and Afro-pessimism,

and you can barely keep up. And when you finally chime in about how you always found "Baby It's Cold Outside" a little rapey, they look at you like you've got all the brainpower of a slice of Christmas ham. There's no way us Gen Xers can possibly keep up... until now.

Introducing Woke Flashcards, the only set of flashcards designed by Gen X, for Gen X. Each card has one popular theory/concept that all the kids are talking about, and what we think the best definition is based on a long weekend spent scrolling through TikTok.

Impress your ten year old Twitch-streaming nephew by informing them that "Mr Beast is such a colonizer." Dazzle your sixteen year old micro influencer niece when you inform her that her mom has a "white savior complex." And really show your nonbinary nephew you're cool when you tell them that you're thinking of turning your marketing department into a workers' co-op. With Woke Flashcards at your side, Gen Z can't help but respect you... we think?

FOR CRYPTO AND NFT FANATICS

This holiday season, give the gift of tax compliance. Help billionaires pay their fare share by investing in B*Coin.

It's a big misconception that the richest human in existence has any actual money. As a billionaire, Elon doesn't actually take a salary.

Instead, he gets paid in stock options. Since all of his wealth is tied up in his stocks, the only way he could pay taxes is by selling his own stock! Does that sound reasonable to you? We're not animals. This is America, we don't make our wealthy pay taxes (apologies, Mr. Snipes, you were the wrong color).

The point is, making billionaires pay taxes hasn't worked. Asking billionaires to pay taxes hasn't worked. It's time for a new approach: *B*Coin. Paying billionaires to pay their taxes.*

Every B*Coin is linked to a cash account that only America's billionaires have access to. This account should only be used for tax purposes (though it'd be obviously cruel and unusual to enforce this). The more B*Coin you buy, the more money billionaires can pay, and the more money trickles down through government spending to you. Stop your left wing lunatic friend from whining about billionaires not paying their fair share and do something about it! Give your money to Elon, so he can finally pay taxes.

**The B stands for Billionaire. Please stop calling it Butthole Coin.*

Elon Musk
@elonmusk

Note, I do not take a cash salary or bonus from anywhere. I only have stock, thus the only way for me to pay taxes personally is to sell stock.

Mysterious Box with **A MORAL DILEMMA**

\$9.99 AND POSSIBLE UNTOLD TWILIGHT ZONE-ESQUE COSTS OF THE SOUL

FOR YOUR ANGRY TWITTER-ADDICTED RELATIVE • AGES: 18+

A mysterious stranger (Frank Langella in a trench coat and fedora where available) will hand-deliver this smooth black cube with a single button on top to the social media obsessed in your life who are sick and tired of the unvaccinated having no respect for the value of human life. With the box comes a simple proposition: push the button, immediately killing the unvaccinated people of the world, but, after causing the death of 3.27 billion people, you'll no longer be able to claim moral superiority for the rest of your life.

An exciting way to bring the fun of social media toxicity to the real world, the box makes a great conversation starter. It's either a fun reminder that the things we say online are rash, untested brain farts wielded with unhinged authority, or as a sobering memorial to the time your relative made good on their Thanos-like threat to wipe out almost half of the world's population because they didn't live up to their standard of social responsibility.

Advent Calendar **FULL OF WEED**

\$200

There's no better gift for the people in your life who'd rather skip the holiday chocolates and go straight to weed than an advent calendar full of weed! And given the climate (change?!) in this crazy (Q-Anon amirite) mixed-up world we're living (dying?!) in, who can blame them?! While our country is fighting over whether women should have autonomy over their bodies, that special stoner in your life can take solace in the fact that while we are inevitably sliding into a Christo-Fascist nightmare, they've got themselves an advent calendar full of weed.

Every day, you'll receive a small dimebag of the middiest of mids, allowing you to unwind so you can do fun stuff like watch your mom decorate the tree while you say, "ornaments are cool," or "is Jesus real?" or "I am having trouble confronting the daily realities of the harsh world we live in." The things you can say while you watch your mom decorate a Christmas tree are endless when you have an advent calendar full of weed!

*Fat***TOE**

\$17.99 EACH

FOR THE BAREFOOTED KLUTZES IN YOUR LIFE • ALL AGES!

We all have a special somebody who's constantly stubbing that pesky hallux on table legs and chair pegs around the home whenever they bandy about with their feet unsheathed. Thanks to The Fat Toe by Fat Joe, they'll no longer need to *Make It Rain* band-aids every time they stub that lil' sucker.

So what exactly is The Fat Toe?

The Fat Toe is a larger, protective big toe made out of velour sweatsuit material that is worn over your big toe when your foot is in the nude. Wanna slip those stockings off your tootsies but don't want to risk damaging the ol' rusty pig? Well, now that King's Toe finally has a crown befitting his royal stature, he not only looks good, but is kept safe from invading toe-averse armies.

How does it work?

It's simple. Rip those sweaty socks off your bottom hands, slide the Fat Toe right on the devil's thumb, and you're good to go!

**RIP THOSE

The Fat Toe is one size fits all! Big toes, small toes, long toes, chode toes, cripsy wispiess, all nail no toe toes, an index finger where the big toe should be toes... Whatever the size your Foot's Toe Father may be, the Fat Toe has him covered.

Student Loan Debt Forgiveness **NFT**

\$AS MUCH MONEY AS YOU'VE GOT

BECAUSE EVERYTHING CAN BE PUT ON THE BLOCKCHAIN • AGES: 17+

With the Biden administration set to restart federal student loan payments in 2022, many are calling for Biden to finally deliver on his campaign promise to cancel student loan debt. Though Biden is hesitant to do something that might make life in America slightly more bearable, Silicon Valley's most benevolent predators are ready to pick up the slack. Introducing the Student Loan Debt Forgiveness NFT.

FREQUENTLY ASKED QUESTIONS:

Q: What is this?

A: It's an NFT!

Q: So is it, like, a piece of art?

A: No! Many people confuse the absolutely hideous computer-generated artwork sold on websites like OpenSea for NFTs. NFTs, or non-fungible tokens, are merely proof of purchase stored on a blockchain. Think of it like a CVS receipt, only one that doesn't actually exist, and printing the receipt uses more energy than the entire country of Ecuador does in a year.

Q: That sounds pretty worthless, and maybe even harmful.

A: It is!

Q: So what does this have to do with student loan debt forgiveness?

A: This is the student loan debt forgiveness NFT.

Q: So you are donating the proceeds from this immaterial receipt on the blockchain to everyone in America currently plagued with student loan debt?

A: No, we cannot undertake that effort at this time.

Q: So sorry, what is this again?

A: It's an NFT! Look, what does it mean for student loan debt forgiveness to be an NFT? I'm not sure. What does it mean for an animated Fox show to be an NFT? Or for a videogame to be an NFT? Or Kickstarter to be on the blockchain? What does any of this Web 3 junk mean? Just be impressed and say, "wow."

Q: Wow.

A: Thank you. That will be fifteen billion dollars, please.

I READ THIS ZINE, AND PEOPLE ARE STILL OBSESSED WITH CONSUMER CULTURE. What Do I Do Now?

//BRADY O'CALLAHAN

WHEN HOUSING, HEALTH, FOOD, AND EVERY OTHER BASIC NECESSITY is tied to employment at a time when worker-led, union-driven job opportunities are few and far between, the ultimate “freedom” we’re left with is the choice to consume the least destructive products, made by companies with the least destructive practices, when we have the ability to do so. While capitalists abuse workers, breaking off just enough for them to survive, there is no room for passion, rest, or even life itself. Here’s a few ways to show solidarity with your fellow workers to take power back into our own hands:

INDUSTRIAL WORKERS OF THE WORLD

“The Industrial Workers of the World (IWW) is a general union that is open to workers from all industries and companies, rather than just one organization or particular sector. The IWW promotes the creation of “[One Big Union](#)” and contends that all workers should be united as a social class to supplant capitalism and wage labor with industrial democracy.”

STUDENT WORKERS OF COLUMBIA STRIKE FUND

“Donations will support students who can no longer afford rent, groceries, or healthcare because of Columbia’s failure to provide adequate wages and sudden change to pay policy... Graduate student workers at Columbia are paid \$5,500 to \$18,000 below an annual living wage in NYC. Yet Columbia raised enough money in the past 5 Giving Days alone, a 5-day work week, to fund the entire cost of our union’s proposal to provide workers with a living wage and adequate healthcare for the next three years.”

UMWA 2021 STRIKE FUND (WARRIOR MET COAL STRIKE)

“Over 1,100 coal miners at Warrior Met Coal in Brookwood, Alabama have been out since April 1st on an unfair labor practices strike. Their seven long months on the picket lines have been hard on the miners as well as their families, and that hard slog has been punctuated by terrifying bursts of company violence. Multiple strikers—and a striker’s wife—have been struck by cars and trucks driven by company employees while walking the picket lines.” (from Labor Reporter Kim Kelly)
